Optima *Silk*

The quality of print achievable on ultra smooth Optima Silk is, quite literally, outstanding. There's simply no need to buy more expensive kraftliner when you can use Optima Silk to print beautiful, vibrant colours on retail ready packs and point of sale. The only white top testliner to be manufactured in the UK, Optima Silk's unique quality derives from a highly sophisticated cleaning and screening process and well invested paper machine, leading to an unblemished, smooth, blue white paper – the ideal printing surface. And, naturally, coming from St Regis, Optima Silk is 100% recycled and recyclable.
